- investment: 2.2 m USD

Type:

- Non-Profit Organisation

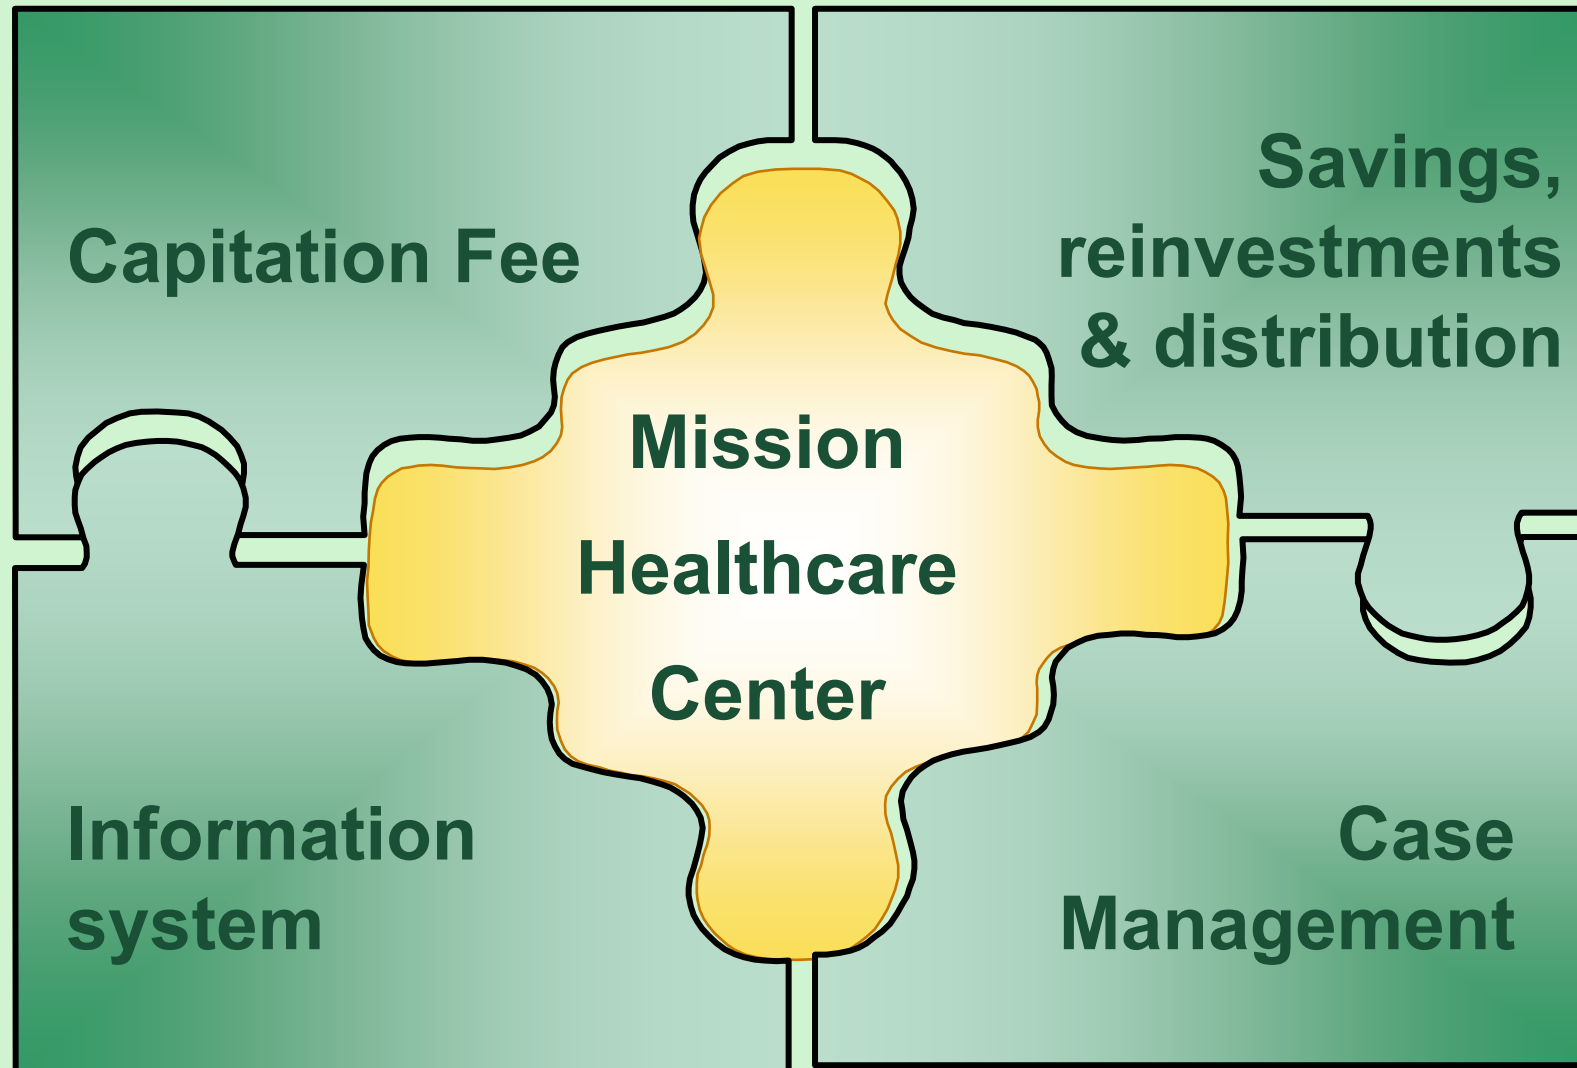

Personal motivation:

- Charity
- Focusing on a single issue
- Set up a model to improve healthcare

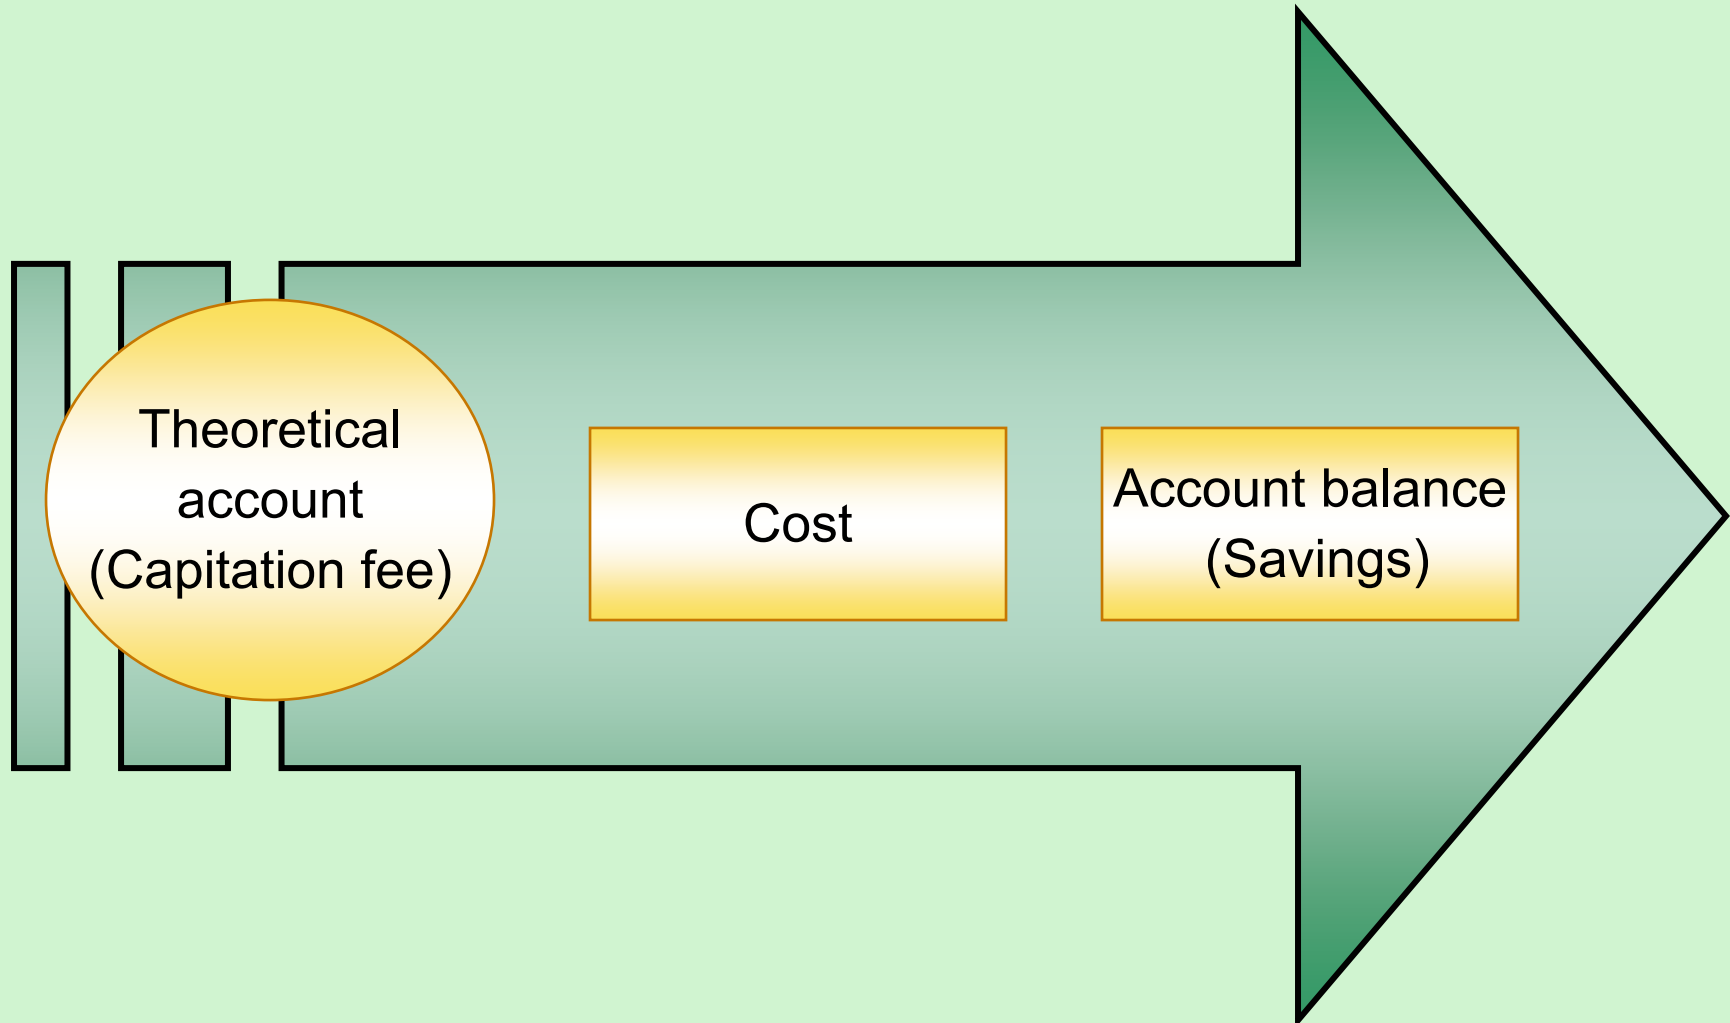

# Basic Principles

- ✓ Application of positive incentives instead of sanctions;
- ✓ Changing the feudal hierarchy to a cooperative partnership and team work;
- ✓ Reducing the defencelessness and dependency of patients;
- ✓ Facilitating the health promotion activity of the population;
- ✓ Improve the allocation efficiency of the scarce natural and financial resources.

# Results of the Mission Model

- better and more human treatment based on right incentive system

- Healthcare system more efficient under the same conditions  
in spite of scarce financial resources

- strong public need to improve health & influence local politics

- Progressive health policy needs model experiments

- Successful model experiments integrated into the national health  
care system.
